ATTACH THE MESH TO THE FIRST PIPE CLEANER.

START FEEDING THE MESH THROUGH THE WIRE FRAME (OVER AND UNDER, LIKE A FAN).

WHEN YOU HAVE A COMFORTABLE SIZE, OF YOUR FIRST COLOR, BUNCH IT TOGETHER AND TIE WITH THE PRE-ATTACHED PIPE CLEAN-ER.

REPEAT, ALTERING COLORS OF MESH UNTIL YOUR FRAME IS FULL.

TAKE YOUR TIME. DON'T WORRY IF EACH BUNCH ISN'T PERFECT, YOU WILL FLUFF IT OUT AND FILL IN WITH MESH TUBING AND DECORATIONS .

FLUFF YOUR WREATH

TIME TO ADD THE CREEP!

GLUE THE FOAM CORE SQUARE TO THE BACK OF THE FRAME AS A BASE TO

GLUE THE SKULL (COVER THE BOARD WITH FELT IF YOU WISH).

USE PLENTY OF GLUE TO ATTACH THE SKULL, HANDS AND WHATEVER OTHER

DECORATIONS YOU WANT TO ADD.

IF YOU HAVE MESH TUBING, MAKE LITTLE BOWS AND ATTACH THEM TO RANDOM PLACES ON YOUR WREATH. (THESE ARE GREAT FILLERS)

LASTLY, CENTER AND ATTACH YOUR BOW.
